UNITED DEVELOPERS CORPORATION SAL

UDC, composed of a consortium of developers and investors, retained the advisory services of LYNX to work alongside a team of consultants (Boskalis Westminster & MCG) for the tendering process for the rehabilitation of the Northern Coast of Beirut, Lebanon, an area encompassing 2.2 million m² composed of a massive land reclamation project, several marinas and a complex master plan. Technical backup was provided with the collaboration of Al-Mabani Group and Bin Laden Group.
